Executive Summary

40ATC is a trust-backed digital instrument designed to fund real projects that create jobs, housing, training, and generational stability. Unlike speculative tokens, 40ATC channels value into a portfolio of on-the-ground initiatives in the U.S., Africa, and globally—aligned with the mission of the 40 Acre Trust: "Never start from zero again."

Burn Progress: The Trust may burn tokens to manage supply; on-chain proofs are published. Airdrop Pool Remaining: Dashboard shows live remaining balance.
